Color decoration is the art of transforming spaces through the thoughtful use of hues, patterns, and textures. It breathes energy into interiors, creating moods that range from serene and subtle to bold and expressive. Whether applied through vibrant tiles, painted walls, or accent pieces, color becomes a powerful design tool that reflects personality and style. In modern spaces, decorative color elements not only add visual interest but also enhance spatial harmony, guiding the eye and defining zones. By layering colors thoughtfully, designers can create dynamic environments that feel both cohesive and captivating.
